

Press Information

KYOCERA Fineceramics webshop has a new web address

Customers from all over the world have been using Kyocera's established webshop for several years now.

Kyoto/London, 11. July 2023. KYOCERA Fineceramics Europe GmbH is now selling a wide range of products through the company's own [webshop](#), which now has a new address. It has evolved into a successful feature of the technical ceramics market over the past few years and is used extensively by customers the world over. Kyocera's technical ceramic solutions are helping to increase efficiency in sectors such as the chemical industry, metrology and analytics, furnace construction and electrical engineering.

Individually tailored offers for customers

Customers who purchase through the Kyocera Fineceramics Online Shop not only buy directly from the manufacturer, but also benefit from fast order processing and delivery to EU destinations within two weeks for in-stock products. After creating an account in the webshop, customers can also request quotations with personalised rates and prices. They might, for example, be offered various dimensions, which can be configured in the next stage of the process using a slider or by directly entering the desired length and then added to the shopping basket. The corresponding sales price can be seen immediately when configuring the length. The minimum order value is €200 net. The ceramics manufacturer also offers a shop discount of 10% on products for high-temperature applications, electrical engineering and laboratory equipment.¹

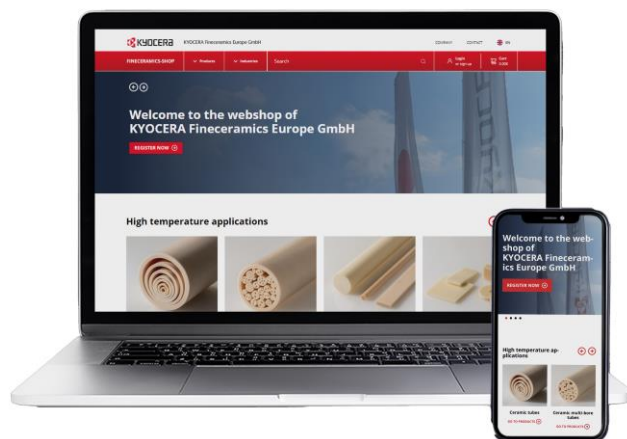

Large selection and immediate availability

Kyocera's online shop offers its customers a wide range of high-performance materials for various fields. These include products for high-temperature technology (pipes and capillaries made of DEGUSSIT high-performance ceramics), electrical engineering (insulators and feedthroughs), laboratory supplies (crucibles, boats, annealing boxes and ceramic plates), laboratory equipment (exhaust air scrubbers and neutralisation systems) and various other products made from technical ceramics.

¹ Applies for customers in Germany and Austria.

Please take a look at our new website at kyocera-fineceramics.com, which offers both a user-friendly overview and the best possible accessibility to our offers and services.

The online shop can be reached at shop.kyocera-fineceramics.de

About Kyocera

KYOCERA Fineceramics Europe GmbH is a subsidiary of KYOCERA Europe GmbH, which has been successful in Europe for over 50 years. The Kyocera Group is one of the world's leading providers of high-performance ceramic components for the technology industry, offering over 200 different ceramic materials, as well as state-of-the-art technologies and services tailored to the specific needs of each market.

KYOCERA Europe GmbH is a company of the KYOCERA Corporation headquartered in Kyoto/Japan, a world leader in semiconductor, industrial and automotive components as well as electronic components, printing and multifunction systems, and communications technology. The technology group is one of the world's most experienced manufacturers of smart energy systems, with more than 45 years of industry expertise. The Kyocera Group comprises 297 subsidiaries (31 March 2023). In England, Kyocera has a subsidiary in Frimley, KYOCERA Fineceramics Ltd. With around 81,000 employees, Kyocera generated net annual sales of around EUR 13.87 billion in the 2022/2023 fiscal year.

Kyocera is ranked 671 on Forbes magazine's 'Global 2000' list for 2023, and ranked as 'The 100 Most Sustainably Managed Companies in the World' according to the Wall Street Journal. For the second year in a row, Kyocera qualified for the Dow Jones Sustainability Index (Asia-Pacific) and acknowledged as a 'Top 100 Global Innovator 2023', being one of the world's leading innovators, for the seventh time by Clarivate.

The company also takes an active interest in cultural affairs. The Kyoto Prize, a prominent international award, is presented each year by the Inamori Foundation — established by Kyocera founder Dr Kazuo Inamori — to individuals worldwide who have contributed significantly to the scientific, cultural, and spiritual betterment of humankind (equivalent to approximately €685,000 per prize category).
